On the 26th of November 2018, in the aula of the High school of Schimatari, the headquarters of our municipality, we gathered, students and teachers of the municipality's schools, the mayor and local authorities, to present our Erasmus+ project "Youngsters Nowadays". We were very lucky to have as audience representatives from 5 European countries who were in Schimatari at that time for their own Erasmus+ project. They were happy to learn about our project and asked us questions about it.

- Improve health and wellbeing
- Enhance the quality of leisure time activities
- Develop literacy and reading skills
- Involve students in environmental protection
- Enhance their opportunities for the job market
- Improve their ICT and English skills
- Raise cultural awareness
- Reduce Early School Leaving of students from underprivileged backgrounds

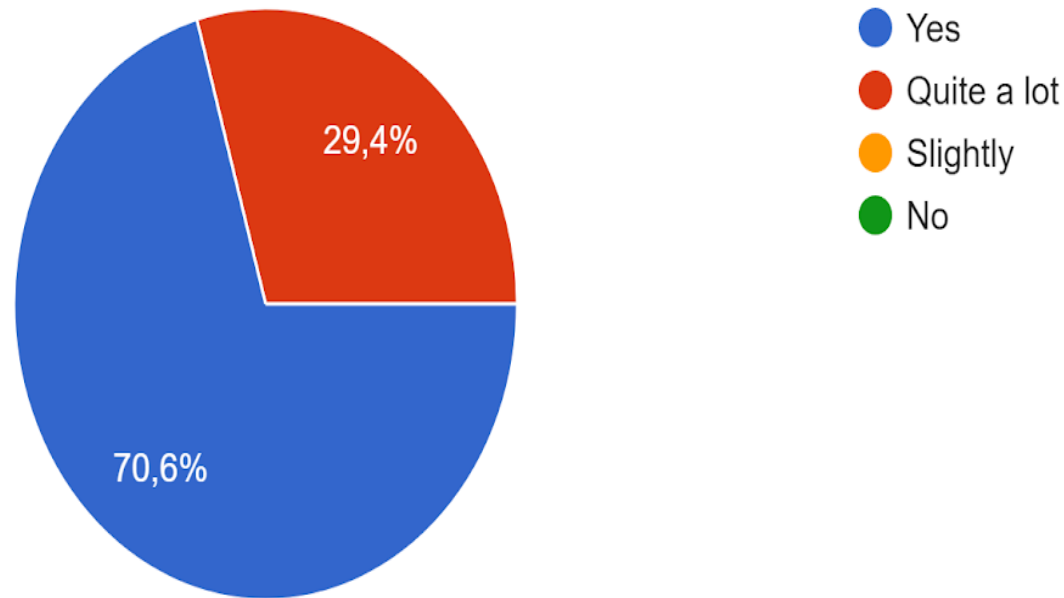

In the meanwhile, after a survey conducted to the project students as well as to their families, we got the results of the projects impact on them. Have a look!!!

2. Were the activities during the first year organized to achieve the project goals?

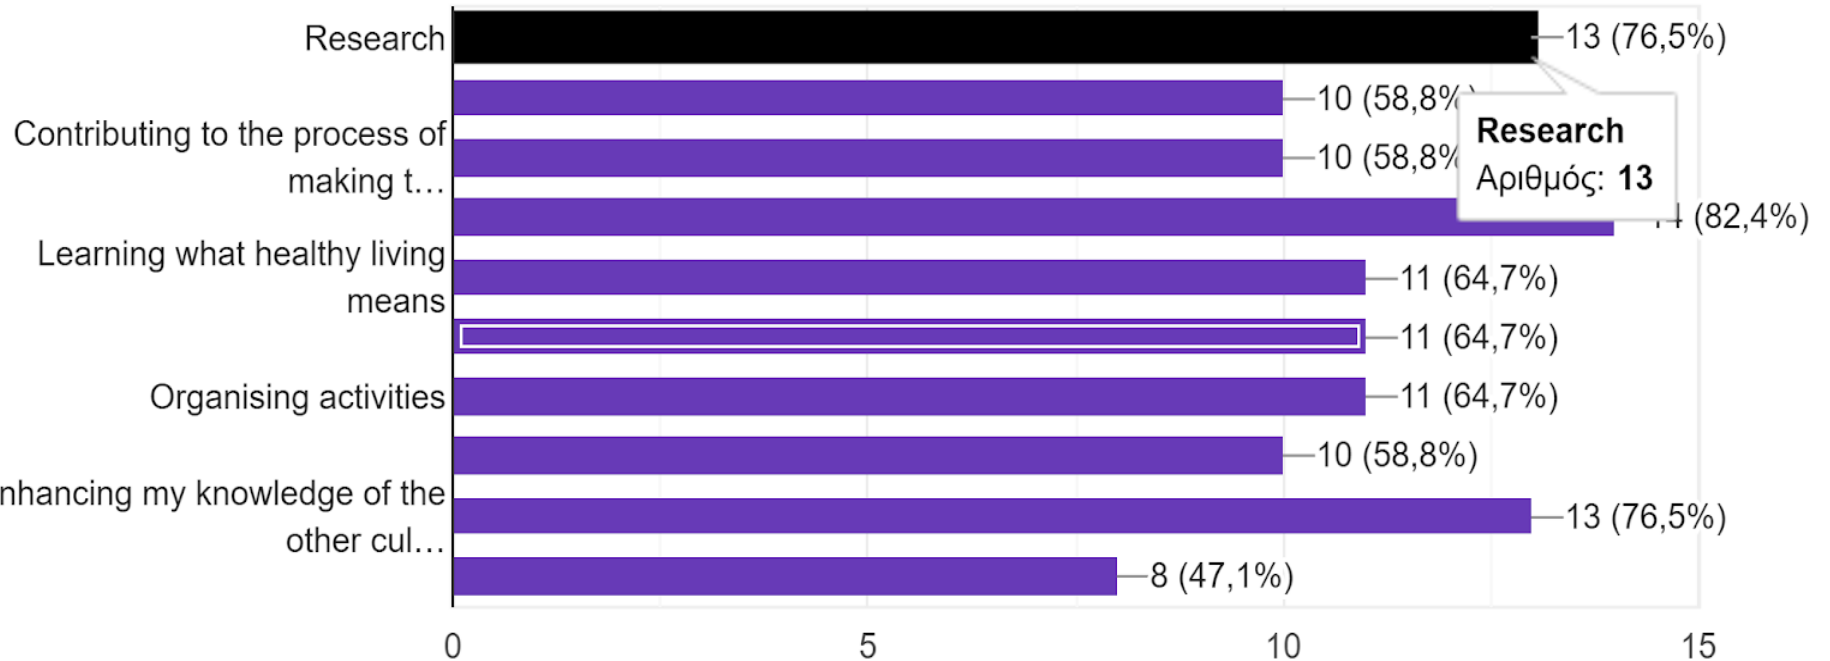

17 απαντήσεις

The majority of the respondents found that the project achieved its goals

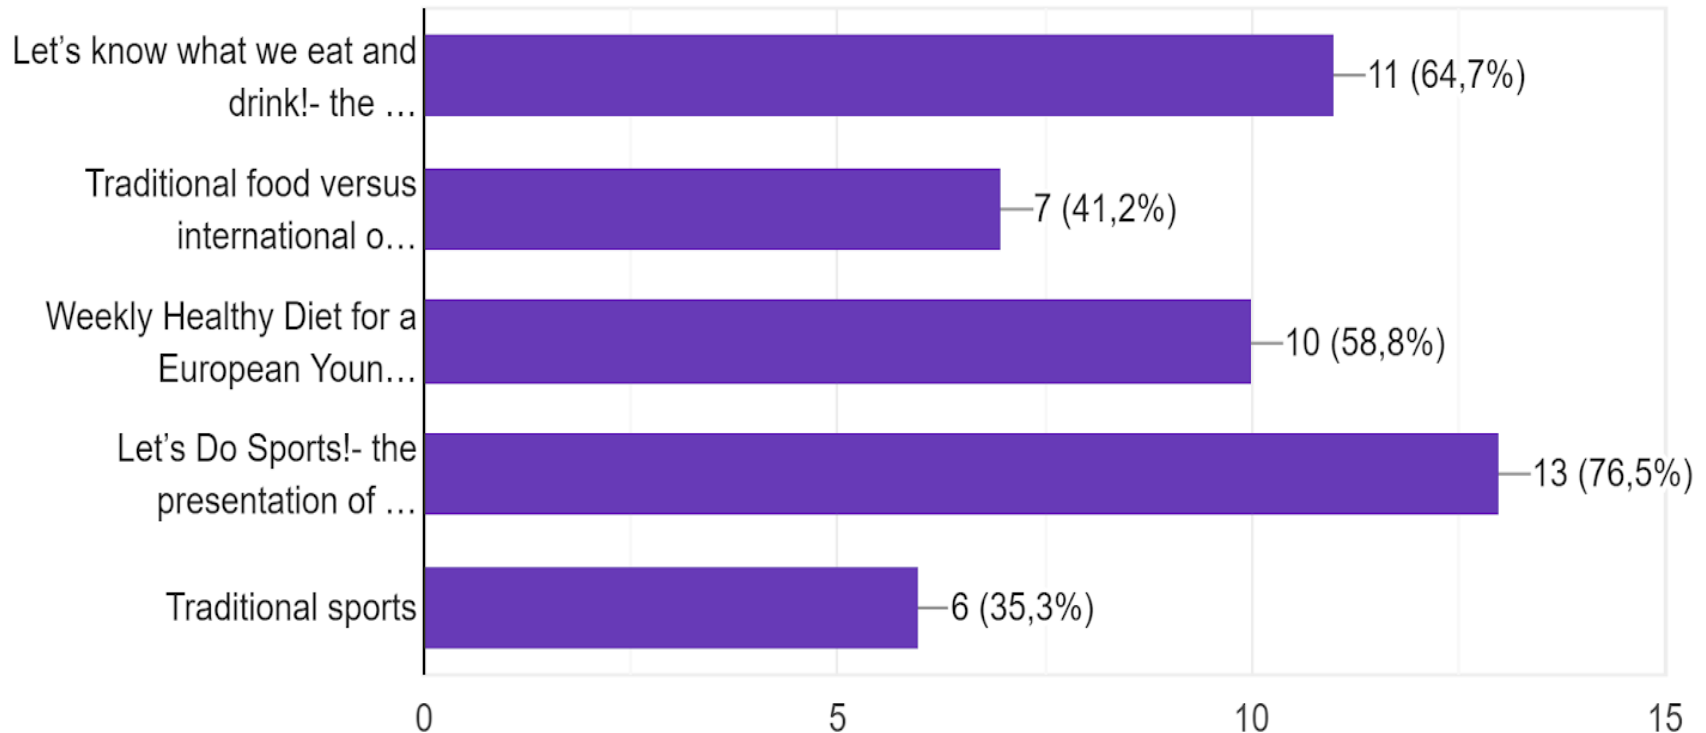

3. What are the aspects that you consider very important for you during the project first year, as a member of the ...r me as a member of the target group...

17 απαντήσεις

4. What are the aspects from the final products that you consider most relevant for learning about and applying a healthy lifestyle?

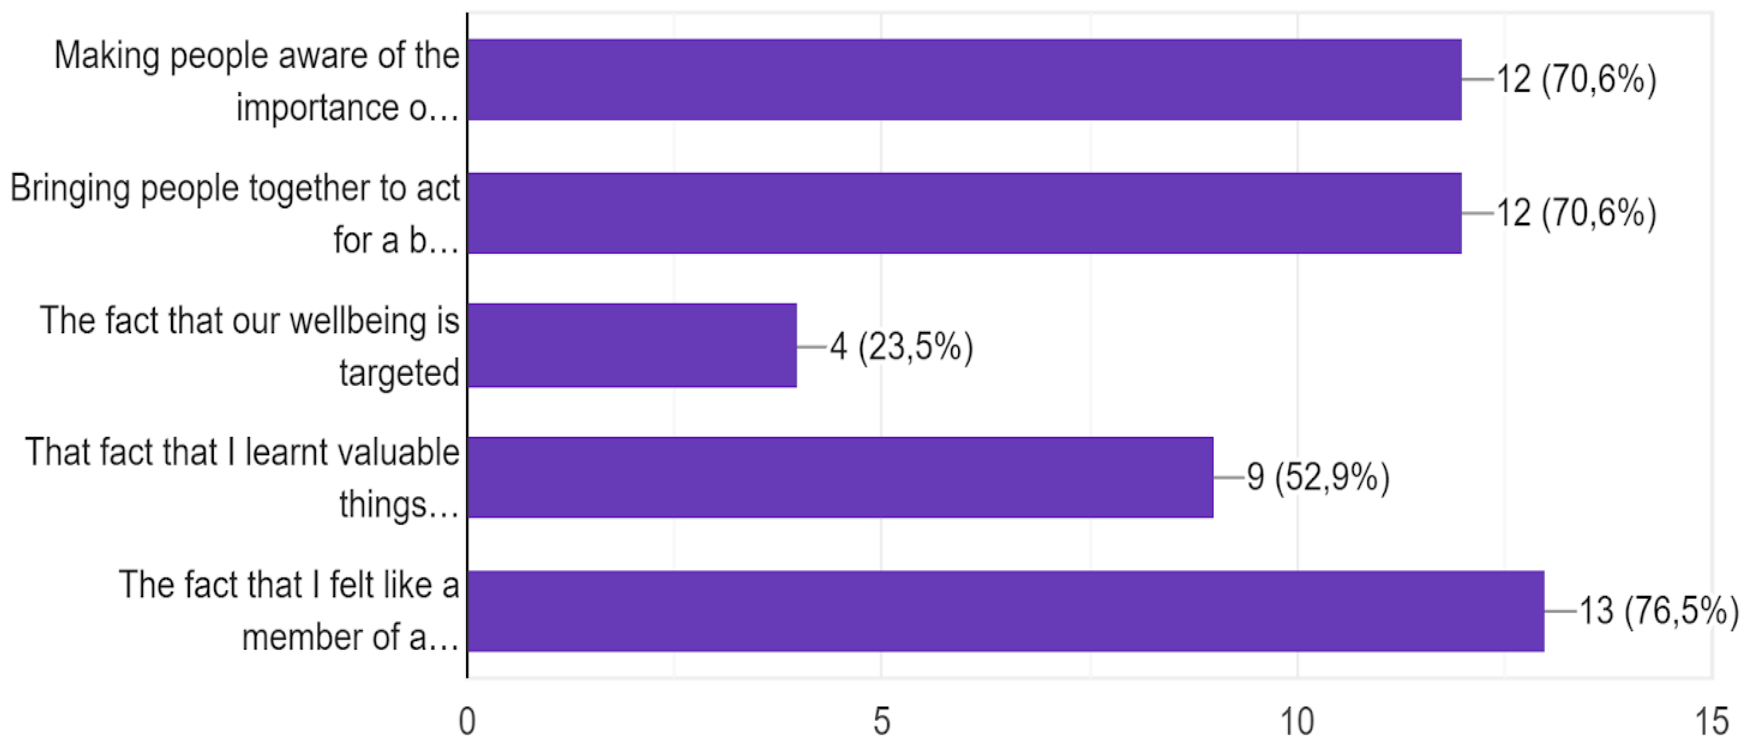

17 απαντήσεις

The majority of the participants answered that the results of the questionnaires helped them realize the importance of leading a healthy lifestyle.

5. What aspects from the campaigns, “A Healthy Eating Week” and ‘A Day of Sports’, do you consider that are important?

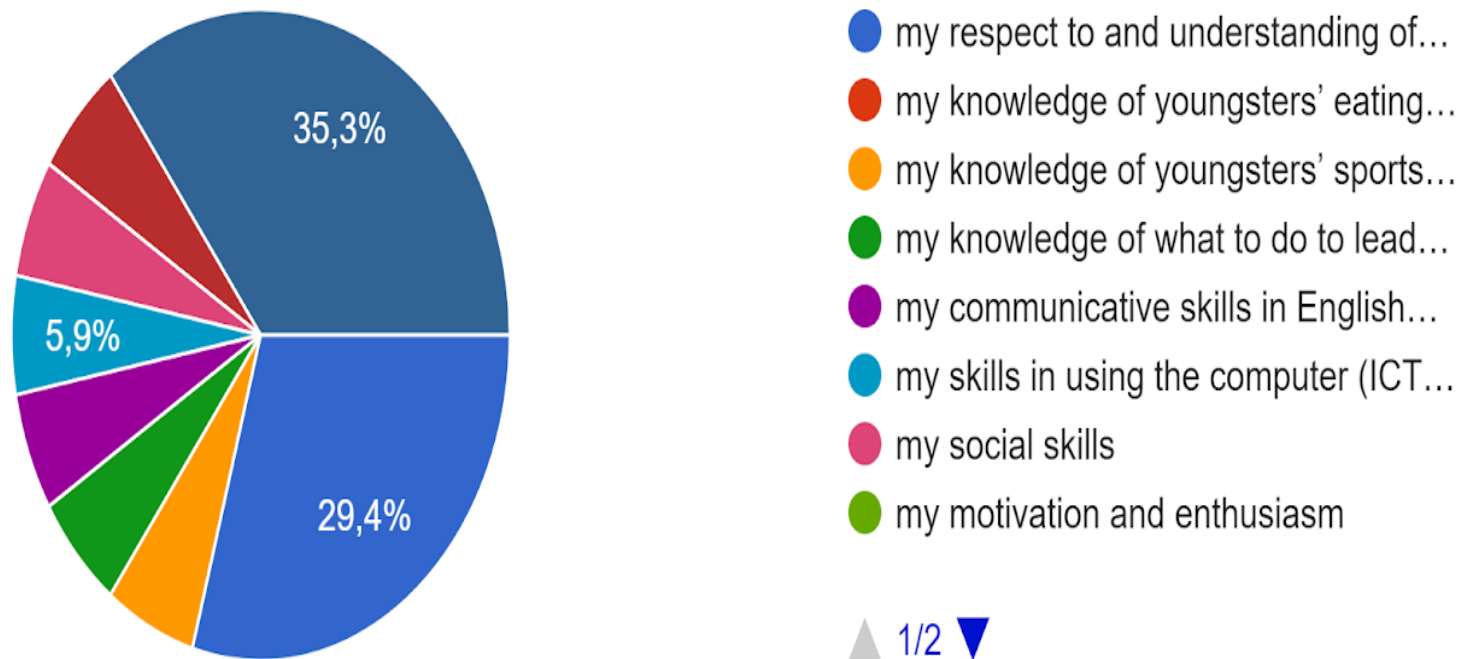

17 απαντήσεις

An equal number of respondents consider that the most important aspects of the campaigns was making people aware of the importance of a healthy lifestyle and bringing people together to act for a better lifestyle

6. Through my participation in these project activities, I improved:

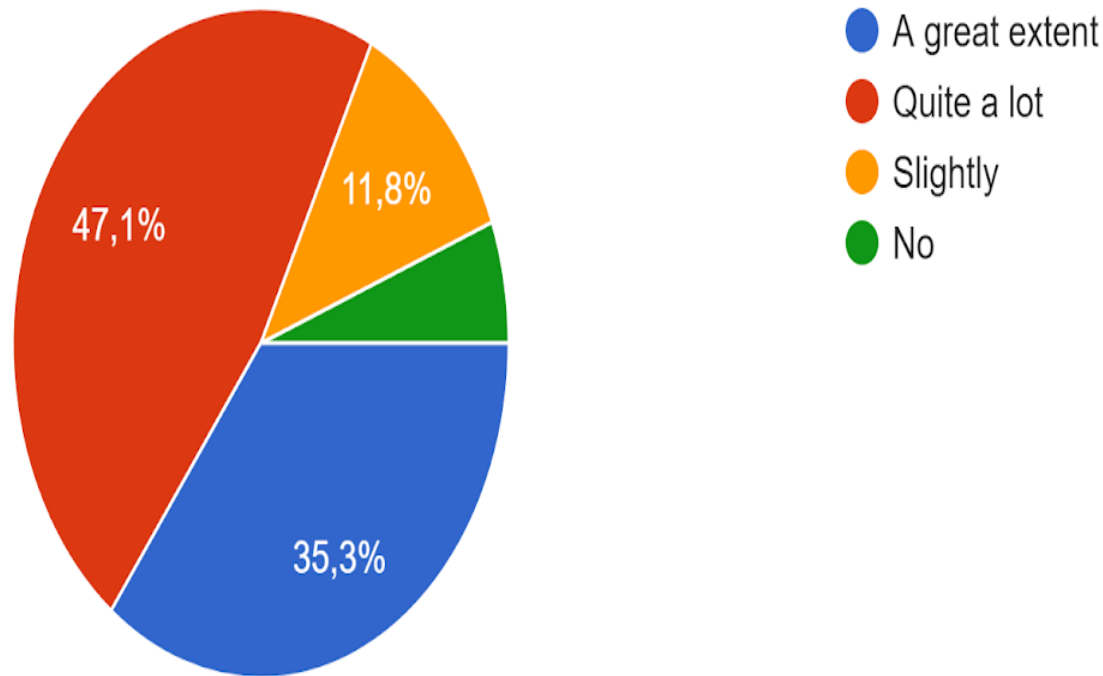

17 απαντήσεις

Most of the participants improved their respect and understanding of other countries and their communicative skills in English.

7. To what extent did the project activities correspond to the youngsters' needs for a better personal and professional life?

17 απαντήσεις

The respondents found that the project activities corresponded quite a lot to their needs for a better personal and professional life while a great amount of them answered that it corresponded to a great extent.

To the question “How do you intend to use in the future the experience you gained through the project activities?” most of the students answered that they were motivated to adopt a healthy lifestyle. All of them, however, admitted that they will get profits from the project in developing their social life as they learned how to collaborate, communicate and respect other cultures. They also learned to be tolerant towards differentiation and avoid racism

To the question “What could your school / community benefit from participating in this project?” most of the students replied that it was an unforgettable experience that taught them how to communicate with peers from different countries and cultures, improved their English and ICT skills and developed tolerance and respect to differentiation. All these will be of great importance for our school to avoid incidents of racism, become more international and more “famous” for the projects it takes part that help its students improve themselves and make it improve its level

To the question “Will you take part, if possible, in the activities of another Erasmus+ project? ” all students replied positively as they consider it a creative and effective way to gain knowledge, experience, develop social skills, teamwork, tolerance and respect of other people and cultures, improve language and ICT skills.

Thank you for your
attention!
